

LION CEDAR

By PFP Distribution

Alaskan Yellow Cedar

A premium, natural wood solution that delivers the durability of hardwoods with the workability of softwoods.

TRIM | SIDING | PATTERNS | DECKING | TIMBERS

Lion Cedar is the #1 Brand of Alaskan Yellow Cedar.

Proven, Predictable, Powerful

Exclusively distributed by PFP Distribution, Lion Cedar offers the largest inventory of Alaskan Yellow Cedar boards, patterns, and timbers in New England and New York.

Recognized by architects, builders, and craftsmen as the industry leader, Lion Cedar's rich appearance, dimensional stability, and lasting beauty deliver exotic wood luxury with superior value.

For distinctive projects that demand the best, professionals trust the brand that leads the category — Lion Cedar.

Lion Cedar's Alaskan Yellow Cedar Products

Coastal-Grown Strength

Dense Pacific coastal growth produces stronger, harder softwood that stays straighter, resists shelling, and behaves predictably when properly dried — helping professionals achieve reliable results on every project.

Protection that Leads

Alaskan Yellow Cedar contains natural properties that protect against decay and most insect attacks. With lower tannins than many wood species, it also reduces finishing issues and eliminates the need for chemical treatment.

Built to Age with Authority

With its warm golden tone and ultra-fine grain, it creates a smooth, splinter-resistant surface that evolves into a soft silver patina if left untreated.

Reliable by Nature.

Dominant by Design.

Harder than traditional Western Red Cedar, Alaskan Yellow Cedar cuts clean, installs smoothly, and holds finishes and fasteners with commanding reliability.

The Value and Performance Speaks for Itself

Distinctive Natural Character

- ✓ Exclusive wood species for projects that stand apart
- ✓ Warm yellow tone that naturally weathers to silver-grey
- ✓ Extra-fine grain for a smooth, luxurious finish
- ✓ Free from pitch and resin, eliminating extractive bleeding

Proven Durability

- ✓ The hardest softwood species
- ✓ 66% harder than Western Red Cedar
- ✓ Naturally resistant to decay and insects
- ✓ Excellent working and machining properties

Safe & Natural

- ✓ No added chemicals, preservatives, or pesticides
- ✓ Suitable for interior and exterior use
- ✓ Naturally splinter resistant

100% sourced
and manufactured
in North America

Mature, stable
wood — not offshore
juvenile lumber

Localized, sustainable
sourcing from the
Pacific Coast

ALASKAN YELLOW CEDAR VS. WESTERN RED CEDAR

	Alaskan Yellow Cedar	Western Red Cedar
